

KĀKĀ ENCLOSURE

You have been tasked with designing a safe enclosure for kākā to increase in numbers, like Orokonui Ecosanctuary or the aviary here in the Botanic Garden. Draw your design here:

REMEMBER TO INCLUDE:

- A predator-proof cage or fence
- Water and food
- Toys and items of interest
- Suitable trees for climbing and perching
- Appropriate ground material
- Enough room for flight
- Enough shelter
- Enough open air
- Appropriate nesting boxes
- Enough space for friends - they are social birds!
- A secure entrance for keepers to enter and leave without letting birds out or predators in!
